PROFILE

A backend software engineer with more than 6 years of experience with a strong inclination towards Java. Well versed in developing backend systems with high performance, solid architecture design, and high availability for critical APIs. Currently pursuing a master's degree in computer science from the University of Greenwich to further broaden the technical expertise and keep pace with the newest trends.

EXPERIENCE

Cerebra IT Services Pvt. Ltd.

Hyderabad, India

Web Api Developer

03/23 – 07/24

- Increased speed of responsiveness by 30% by developing REST APIs in Java using Spring Boot framework to streamline backend services.
- Reduced the possible exploitable risks by 40% by performing extensive code reviews and best security practices to fill the gaps due to security vulnerabilities.
- Improved reliability in communication and data access by 25% by designing messaging gateway, reports generation mechanism and CAPTCHA system.

Tech-N-Vision Ventures

Hyderabad, India

Software Engineer

10/18 – 03/23

- Reduced manual processing time by 35% and enhanced the system functionality by developing REST APIs in Java using the Spring Boot framework in supporting customer document transactions, disputes, invoices, and chatbot interactions.
- Reduced deployment time by 40% and added scalability on upgrading a legacy java servlet-based web application to the current microservices architecture.

PROJECTS

EVM Management System

03/23 – 07/24

- Developed REST APIs for tracking electronic voting machines.
- Tools: VS Code, DBeaver, Jaspersoft Studio, JMeter | Framework: Spring Boot, Hibernate | Language: Java

Emagia

03/20 – 03/23

- Developed backend functionality for this order-to-cash software for catering to customers daily financial needs.
- Tools: Eclipse, Toad | Framework: MVC | Language: Java

GIA

10/18 – 03/20

- Developed backend functionality for this chatbot to serve customers in their day-to-day transactions.
- Tools: Spring Tool Suite, DBeaver | Framework: Spring Boot, Hibernate | Language: Java

EDUCATION

University of Greenwich

London, UK

Master of Science in Computer Science

2024 - Present

- Relevant coursework includes Enterprise Software Engineering Development, Mobile Application Development, etc.

SKILLS

Programming Languages: Java

Database Management: MySQL, PostgreSQL, Oracle SQL
